

# CANOEMODEL KITS

**10 quality easy to build models with many new options and accessories.**

The E.M. White Guide canoe kits are the main models of our site. Available in five sizes, ranging from 24" up to a huge 96"! All built with a time proven method, which guarantees anyone with basic hand tools, can build a beautiful canoe or kayak! Each kit is made from quality native woods and accurately cut and labeled for a straight forward assembly, assuring an heirloom you will be proud of. Any paddling or outdoor enthusiast will be thrilled to get this great kit and brag that they built it themselves. The canoe kits have evolved into the easiest and best quality canoe or kayak model kits out there today! Starting at \$139.00 .

The 54, 72 & 96 canoe can be fitted with the Chandelier light kit, Easy to install and will turn your masterpiece into a shining Chandelier that will be useful for years to come.

"Building the strip canoe & kayak model" plans book is for the person who wants to cut all of their own strips and other parts, as well cutting out the forms using the full size patterns and instructions. Build the 72, 54 & 36 canoes and a 42" strip kayak. A great value.

42" strip or stitch & glue kayak are scale models of the most popular home built kayaks. All easy to build with CNC cut parts, panels, coamings and forms. Either 42" or 72" stitch & glue. So much fun to build, just like the real thing. The educational value of building one of these is limitless. Step by step DVD included with each kit.

Now lets get to the Canoe Chandeliers Both the ready to install light or the build your own kit, have been very popular. No surprise really, since each one is hand made by a skilled craftsman, one at a time. Quality woods such as the clear native pine, Red Cedar gunwales, seats, thwarts and deck caps give a rich antique look. 4 in 1 LED Flat panel lights with three shades of white that are also dimmable. Low energy consumption. Build your own with one of our complete kits, or buy it ready made by Canoe Model Kits. Full time craftsman's builds each canoe, one at a time to your specifications. Three sizes to choose from. The big 96" or 8 footer canoe with choice of lights. A long time favorite 72 has been built many different ways,
